    This has by far been the best phone I have ever used hands-on. Flagship Specs, Classy look, Premium Packaging and the Speed you Need!<br/>Appearance - The device looks very much similar to the OnePlus 6T upfront but it has got the speed orange highlights at the back, carbon finish and McLaren Branding at the bottom.<br/>Camera - The night mode really captures amazing pictures and the portrait mode is just amazing. The low light photography could still be improved.<br/>Battery - With average usage with full day data on, it easily lasts upto 2 days. The Warp charging is just amazing, it takes around 40-45 mins to charge from 0-100%. But you could easily get a day's charge within 20 mins.<br/>Speed - With 10 Gigs of RAM, speed should not be a question. You could open up 5 high specs games and it still wouldn't lag. And its bragging rights for sure!<br/><br/>Overall, I am really satisfied with this device and feels great to be a part of OnePlus Community! Go, get it! Its for those, who are in continuous pursuit for speed!

The Warp charging is just amazing, it takes around 40-45 mins to charge from 0-100%. But you could easily get a day's charge within 20 mins.Speed - With 10 Gigs of RAM, speed should not be a question. You could open up 5 high specs games and it still wouldn't lag. And its bragging rights for sure!Overall, I am really satisfied with this device and feels great to be a part of On ePlus Community! Go, get it!
